DOCKETED
USNRC

December 28, 2006 (11:48am)

OFFICE OF SECRETARY
RULEMAKINGS AND
ADJUDICATIONS STAFF

Dear NRC:

I understand you are looking at security for 3 mile island. The objective of the terrorist would be two fold.

1. Terrorize the area and the nation by damaging the nuclear reactor
2. Stealing nuclear material from the island.

We need one guard at the front gate along with equipment to puncher tires and an approaching road that is not straight to the island bridge. The rest of the island needs armed guards on patrol. People on boats land on that island all the time. A fence with raiser wire needs to be on the outer perimeter of the island.

One ground to air missile battery needs to be placed on the island or at the Air Port. I do not know how to defend against a mortar or short range missile attack on the reactor from either bank of the Susquehanna River.
