

January 3, 2007

Mr. Jim Neumann
Vice President of Communications
EDSA Micro Corporation
16870 West Bernardo Dr., Suite 330
San Diego, CA 92127

Dear Mr. Neumann:

Thank you for responding to our November 16, 2006, letter regarding your company's use of the official NRC seal and statements on your website that the NRC had certified EDSA's software. We appreciate that you have already removed the NRC seal from your website and made a commitment to remove the statements about NRC certification from your website. Please inform us when you have taken that action.

We would also like to address some of the statements in your response. You stated that you relied on the FirstGov website, which stated that most images and graphics may be used and reproduced without permission or fee. However, that website also noted that some images may be protected by license and strongly recommended reading the disclaimers on each site before use. It also referred you to the Government Printing Office website for information on obtaining seals of Federal agencies. Below the disclaimer, the website includes links to other government websites where photographs and graphics are available. NRC's website is not included among those links, which indicates that NRC materials are not covered by the disclaimer.

You also indicated that you relied on the NRC's website, which states that information generated by the NRC or developed under a contract is not copyrighted unless indicated otherwise; non-copyrighted material can be reproduced without permission. This statement is limited to information on the NRC website and is not intended to govern use of the NRC seal. Appropriate uses of the NRC seal are described in our regulation, which we included in our letter (10 C.F.R. § 1.53).

We again appreciate your cooperation with our request. If you have any questions, please feel free to contact Sandy Joosten at 301-415-1962.

Sincerely,

/RA/

Annette L. Vietti-Cook
