SUBJECT: AFFIDAVIT TO WITHHOLD INFORMATION FROM
PUBLIC KNOWLEDGE

I, Cary D. Alstadt, do hereby state,

1. I am the Columbia Fuel Fabrication Facility (CFFF) Plant Manager, Westinghouse Electric Company, LLC, (WEC), and authorized to make and execute this affidavit.
2. On December 11, 2006, WEC provided to representatives of the Nuclear Regulatory Commission nuclear criticality safety procedures that support the Nuclear Criticality Safety (NCS) program per WEC letter number LTR-RAC-06-90. It is Westinghouse's position that portions of these procedures should be withheld from public disclosure as confidential commercial information under 2.390(a)(4). Enclosed with this affidavit is a redacted version of the documents which may be made publicly available.
3. The information provided is routinely withheld from public disclosure.
4. Disclosure of the subject information would harm the competitive position of Westinghouse since this report contains substantial sensitive information related to the company's nuclear criticality safety program.

For all the foregoing reasons, Westinghouse requests that the subject information be withheld from public disclosure by virtue of 10 CFR 2.390(a)(4).

A handwritten signature in black ink, appearing to read "Cary Alstadt", with a long horizontal line extending to the right.

Cary Alstadt, CFFF Plant Manager
