Re: Materials License 37-07722-04

03003094

Dear Ms. Gabriel,

Bryn Mawr Hospital, Radioactive Materials License #37-07722-04, submitted a license amendment on December 13, 2006 to add a new outpatient center. Tara Bachman, our medical physicist, received an email on December 28, 2006 asking us to resolve an issue before the amendment can be assigned to a reviewer.

In Appendix B of the amendment we have included a "Radiation Shielding Evaluation" for the HDR treatment room. One of the pages in this document contains a fax cover sheet dated 10/24/06 which states that "The information contained in this fax transmission is confidential and is intended solely for the use of the individual &/or entity named on this form." This was the cover sheet used by the consultant that was hired to do the shielding evaluation. I authorize the NRC to receive and use the information submitted in this shielding evaluation in order to process the amendment.

If you have any questions or require additional information, please do not hesitate to contact our physicist, Tara Bachman, at 907-788-9440, ext. 49 or tarabach@comcast.net.

Sincerely,

Brenda DeFeo
Vice President
