Re: Additional Information for Amendment Request, Control No.: 127018.

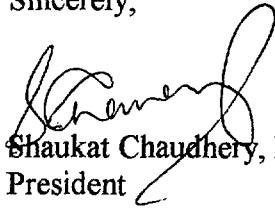

Dear Ms. Weidner,

As requested by your resent letter dated August 2, 1999, I am providing the following information to facilitate the pending amendment request.

1. We confirm that the training program will incorporate records that include:
 - a) Date and duration of training
 - b) Topics Covered
 - c) Name(s) of individual providing training
 - d) Name(s) of individuals attending training
2. Instruments will only be calibrated by services licensed by the NRC or an Agreement State for that purpose, which would include:
JRT Calibration Services NRC License: 37-302298-01
1200 E. High Street, Suite 111
Pottstown, PA 19464
3. Backup instruments will be available to replace instruments sent out for calibration and/or repair. Replacement equipment is available through the pharmacy, through the manufacturer and from the repair facilities. No use of radioactive material will be scheduled unless properly operating equipment is available.
4. We confirm that our procedures for receiving and opening packages will include the requirements of 10 CFR 20.1906. This will be done in order to address all of the requirements, including the need to survey packages within three hours of receipt.

If you have need of any additional information, please do not hesitate to contact me at (732) 607-1111. Thank you for your help with our amendment request.

Sincerely,

Shaukat Chaudhery, M.D.
President
