Attention: Mr. David B. Matthews
Director, Division of New Reactor Licensing

Subject: Amarillo Power Plans for Submitting Early Site Permit and Combined License Applications

Dear Mr. Matthews:

Pleasant Valley Power LLC, dba Amarillo Power LLC ("Amarillo Power"), a limited liability company organized and existing under the laws of Texas, was recently formed to investigate the licensing and building of advanced commercial nuclear power plants. The purpose of this letter is to advise you of Amarillo Power's intention to prepare and submit to the NRC an application for an Early Site Permit ("ESP") for a reactor site in the vicinity of Amarillo, Texas. Amarillo Power plans to construct and operate two GE Advanced Boiling Water Reactors ("ABWRs") at the site. Our current plans are to submit an ESP application for the site before the last calendar quarter of 2007 and a Combined Construction Permit and Operating License ("COL") application as soon thereafter as is practicable. We will provide an updated schedule and more detailed information on our plans before the end of this year.

As set forth in the enclosed Affidavit of George R. Chapman, this letter contains proprietary information which we request be withheld from public disclosure pursuant to 10 CFR § 9.17(a)(4) and the policy reflected in 10 CFR § 2.390(a)(4).
