LISLE, ILLINOIS 60532-4352

JAN 05 2007

Blake M. Berman, M.D.
Radiation Safety Officer
McLaren Regional Medical Center
Department of Radiology
401 South Ballenger Highway
Flint, MI 48532

Dear Dr. Berman:

Enclosed is Amendment No. 64 to your NRC Material License No. 21-04171-04 in accordance with your request. Please note that the changes made to your license are printed in **bold font**.

Please note that other minor changes were made to the license. The leak test condition has been removed from your license because 10 CFR 35.67 applies to the sealed sources that you possess under this license and license condition 15 was added. Neither of these changes should effect your licensed program.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

NRC's Regulatory Issue Summary (RIS) 2005-31 provides criteria to identify security-related sensitive information and guidance for handling and marking of such documents. This ensures that potentially sensitive information is not made publicly available through ADAMS, the NRC's electronic document system. Pursuant to NRC's RIS 2005-31 and in accordance with 10 CFR 2.390, the enclosed license document is exempt from public disclosure because its disclosure to unauthorized individuals could present a security vulnerability. The RIS may be located on the NRC Web site at: <http://www.nrc.gov/reading-rm/doc-collections/gen-comm/reg-issues/2005/ri200531.pdf> and the link for frequently asked questions regarding protection of security related sensitive information may be located at: <http://www.nrc.gov/reading-rm/sensitive-info/faq.html>. A copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Sincerely,

A handwritten signature in cursive script, appearing to read "Toye L. Simmons".
