139549

Dear Mr. Smarte:

This refers to your license amendment request. Enclosed with this letter is the amended license.

Please note that we only added Dr. Jackman to your license at this time because no additional information was provided as requested for the other physicians in our e-mails to your consultant Krueger-Gilbert Health Physics, Inc. on October 30, 2006 and to you on December 18, 2006. When or if you obtain the requested information on the remaining physicians you may re-submit an amendment request.

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22©)(14).

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Medical, Academic, and Industrial Uses of Nuclear Material**; then **Toolkit Index Page**.
