Subject: Lack of renewal or termination request.  
(NOTE: This will be used as the Documents Title in ADAMS)

Summary: I left a message on Dr. Misanko's voice-mail for him to get back in touch with me since a renewal or termination request for the licensee had not been received.

12/28/2006 12:30 I left a message on the college's voice-mail system.

1/3/07 09:00 I accessed a message from Dr. Misanko that he would call me back regarding the license. 09:15 Dr. Misanko called again. I informed him that we would need something in writing from the licensee requesting termination of the license. The letter should state that the licensed material was transferred to Los Alamos in June 2006, that no leak test detected removable contamination, and that the licensee would like the license to be terminated. A copy of the most recent leak test record should be enclosed with the letter. The Los Alamos letter can be found in ADAMS at ML061790323.
