Name of Licensee:	Metal Management Pittsburgh
Name of Participant(s):	R. Dennis O'Laughlin, President Thomas Cameron, Foreman Steven Courtemanche, Health Physicist NRC
Telephone No.	412-384-7400 610-337-5075
Subject: (NOTE: This will be used as the Documents Title in ADAMS)	Failure to provide renewal or termination request.
Summary:	I left a message on Mr. O'Laughlin's voice-mail for him to get back in touch with me. 1/3/07 09:15 I left a message with the receptionist for Mr. O'Laughlin to get back in touch with me. 1/8/07 11:00 I was informed that I should speak with Thomas Cameron for information on the Kevex units. Mr. Cameron stated that he has been very busy lately and apologized for not calling me back. I told Mr. Cameron that Metal Management still possessed a radioactive materials license for Kevex units which was renewed in 2005 so that the licensee could properly dispose of the devices. The license is set to expire at the end of this month and the NRC needs something in writing requesting the termination of the license if the devices were transferred. If the licensee has documentation of the last leak test and a letter from the recipient stating that they have received the devices that should be included with a letter requesting the termination of the license prior to the end of the month.
Action Required:	Put in ADAMS
