Subject: RADTRAN

Matt,

Atttached are some of my files for RADTRAN. It is best to open the two report files in either notepad or wordpad. One of the report files was a latent cancer fatality run with the same parameters used for dose consequences. You said you there was a request for this information. Was it a FOIA? I had some questions and went directly to the code source for my answers. Do you need my e-mails to SANDIA about RADTRAN also? Do you need the preliminary runs also?

I also have hard copies of these three files for you.
Elaine
