NUCLEAR REGULATORY COMMISSION
REGION I
475 ALLENDALE ROAD
KING OF PRUSSIA, PENNSYLVANIA 19406-1415

January 10, 2007

Docket No. 03013268
Control No. 139782

License No. 47-17745-01

Daniel Lauffer
Chief Executive Officer
Charleston Hospital
d/b/a St. Francis Hospital
P.O. Box 471
Charleston, WV 25322-0471

SUBJECT: CHARLESTON HOSPITAL, REQUEST FOR ADDITIONAL INFORMATION
CONCERNING APPLICATION FOR AMENDMENT TO LICENSE, CONTROL
NO. 139782

Dear Mr. Lauffer:

This is in reference to your letter dated November 9, 2006 requesting to amend Nuclear Regulatory Commission License No. 47-17745-01. In order to continue our review, we need the following additional information:

It appears from your letter that a possible change of ownership (control) has occurred. Licensees must provide full information and obtain NRC's **prior written consent** before transferring control of the license. Control of a license is in the hands of the person or persons who are empowered to decide when and how that license will be used. That control is to be found in the person or persons who, because of ownership or authority explicitly delegated by the owners, possess the power to determine corporate policy and thus the direction of the activities under the license. A transferee is an entity that proposes to purchase or otherwise gain control of an NRC-licensed operation. A transferor is an NRC licensee selling or otherwise giving up control of a licensed operation. Provide the following information concerning changes of control by the applicant (transferor and/or transferee, as appropriate). If any items are not applicable, so state.

- a. Provide a complete description of the transaction (transfer of stocks or assets, or merger).
- b. Indicate whether the name has changed and include the new name. Include the name and telephone number of a licensee contact who NRC may contact if more information is needed.
- c. Describe any changes in personnel or duties that relate to the licensed program. Include training and experience for any new personnel.
- d. Describe any changes in the organization, location, facilities, equipment or procedures that relate to the licensed program.

D. Lauffer
Charleston Hospital

2

- e. Describe the status of the surveillance program (surveys, wipe tests, quality control) at the present time and the expected status at the time that control is to be transferred.
- f. Confirm that all records concerning the safe and effective decommissioning of the facility will be transferred to the transferee or to NRC, as appropriate. These records include documentation of surveys of ambient radiation levels and fixed and/or removable contamination, including methods and sensitivity.
- g. Confirm that the transferee will abide by all constraints, conditions, requirements and commitments of the transferor or that the transferee will submit a complete description of the proposed licensed program.

Please submit the answers to these questions over your signature and that of Mr. James W. Thomas of Herbert J. Thomas Memorial Hospital Association.

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Medical, Academic, and Industrial Uses of Nuclear Material**; then **Toolkit Index Page**. Or you may obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-888-293-6498. The GPO is open from 7:00 a.m. to 8:00 p.m. EST, Monday through Friday (except Federal holidays).

We will continue our review upon receipt of this information. Please reply to my attention at the Region I Office and refer to Mail Control No. 139782. If you have any technical questions regarding this deficiency letter, please call me at (610) 337-5102.

If we do not receive a reply from you within 30 calendar days from the date of this letter, we will assume that you do not wish to pursue your application.

Sincerely,

Original signed by Richard McKinley
