RE: Docket No. 030-36974

12/28/06
TIFR 48231
①

Dear Sirs:

I would like to bring your attention to a misunderstanding in the "Draft Topical Report on the Effects of Potential Natural Phenomena and Aviation Accidents at the Proposed Pa'ina Hawaii, LLC, Irradiator Facility". This document is part of the supporting documents for the Draft Environmental Assessment of the Pa'ina Hawaii facility.

In section 1.1 Background, occurs the following sentence:

*"The proposed irradiator is distributed by GRAY*STAR, Inc., built by CHL Systems, is marketed under the name Genesis II, and classified as an underwater Co-60 irradiator."*

This is technically not correct. The proposed Genesis II irradiator is designed, manufactured and marketed by GRAY*STAR, Inc. The Clayton H. Landis Company, Inc. provides engineering support and the fabrication of the irradiator under contract by GRAY*STAR, Inc. The Genesis Irradiator™ is classified as an underwater, self-shielded, Co-60 irradiator.

We would appreciate it if you made this modification in the final report.

Sincerely,

Russell N. Stein
Vice President
GRAY*STAR, Inc.
