Subject: Response to slides

We looked through your slides regarding selectoin of monitoting well locations. We suggest that you provide an additional figure on surface water and cave guage locations.

Did you send copies of the slides to the other stakeholders yet?

Will you be bringing color hard copies of the slides with you for the participants at our meeting?

Also, what is the status of the electrical imaging and soil verification studies?

Do you plan on submitting a report on surface water and cave guage installation?
