Due to increased NRC license costs, it has been determined that it no longer makes economic sense to provide a Mobile HDR service.

As such, we are requesting that our Radioactive Materials License # 29-30593-01 be terminated.

02 Mar

We have never possessed or used radioactive materials at our New Jersey site in Mahwah, New Jersey.

The sole purpose of this license was to transport an HDR unit from its home location (Advanced Radiation Oncology Services of Rockland, Nyack, NY.) to various facilities.

The unit will remain fixed at the home site.

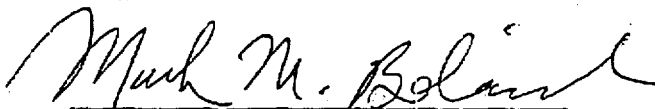

The home site license, is NYS Dept. of Health Radioactive Materials license # 3278

Please terminate our current NRC license # 29-30593-01.
