STATEMENT OF INTENT

I, Alan G. Wilson, am the Garrison Manager of the US Garrison-Rock Island Arsenal, and the current license holder of Material License number SUB-1435, issued by the US Nuclear Regulatory Commission for Jefferson Proving Ground (JPG).

It is now estimated that it will cost between \$8,000,000.00 and \$12,000,000.00 for completion of the current Field Sampling Plan (FSP) for characterization of the DU Impact Area located north of the firing line at JPG, and for implementation of the subsequent decommissioning plan for that area which will be submitted thereafter. It is my intent to request that funds be made available when necessary in the required amount to support the proposed license termination activities.

However, any requirement for the payment or obligation of funds established by this FSP and the subsequent license termination plan shall be subject to the availability funds, and no provision herein shall be interpreted to require payment or obligation of funds in violation of the Anti-Deficiency Act, 31 United States Code (USC) Section 1341.

A handwritten signature in black ink, appearing to read "Alan G. Wilson".

Alan G. Wilson
Garrison Manager
