Subject: Request for Amendment 2, Docket 9315

Kim,

Hope you had a good holiday and a Happy New Year.

As you can imagine, getting work done during the holidays has been a challenge. We've been working with the group that has an microphotography equipment at Y-12, but things have been slow getting done. We are finally close to sending you the micrographs of the kaolite as Bob requested on the last conference call. Luckily we had a cast package that could be cut up to gather the samples. The micrographs were taken at three different depths in the kaolite casting; top, middle and bottom. We took pictures on the top and side of each cubical sample, and at two different positions around the circumference as well. The pictures can be zoomed in to see more detail if required. The picture files may be too big to email, in which case I will overnight a CD. I hope to have it on its way to you this week.

On another subject, Amendment 3 is about ready to submit. Amendment 3 has most of the items we talked about at the public meeting back in August. It should be coming to you in 2 to 3 weeks. The submittal will be the entire SAR, Revision 1, so I plan to hand deliver. More on that after I get you the micrographs.

Thanks,
Jeff
