Re: **NRC License # 29-30698-01**
Purdue Pharma LP
Cranbury, New Jersey Facility

Dear Sir/Madam:

Please consider this correspondence as notification that Purdue Pharma L.P. requests an amendment to our existing NRC Radioactive Materials License # 29-30698-01. The most recent amendment to our license was No.8 and approved on December 27, 2005. We request the following change to our license:

1. Section 6 J – Delete Item J (Sealed Source Isotope Products Laboratories, Model RV-137-200U, 196 microcuries) from the license. Purdue has discarded this material through our licensed contractor, Veolia Environmental Services. The necessary paperwork documenting disposal is attached.

Sections 9 and 11A also contain references to Section 6 J. These references should also be deleted from the license.

To help expedite our request please do not hesitate to contact me at 609-409-5826 or by fax at 609-409-6930. Your time and assistance in this matter is appreciated.
