Dear Kathy,

Thank you for returning my phone call last week. As we discussed Superior Paving recently acquired several asphalt plants and equipment from APAC Asphalt. Included in that purchase were three model 4640B and one model 3440 density gauges. Superior Paving has used both of these Troxler gauges for several years. Our intension is to store them in a locked trailer located at our Manassas plant. At some time in the next few months we intend to hire a density technician who will be assigned one of these gauges. The plant location is, 8747 Vulcan Lane, Manassas, VA. 20109

In addition we are construction a steel secured vault at our Culpeper Plant for storage of two of our gauges. The storage site is located at 18244 Germanna Highway, VA 22710. The gauges will be stored in a locked steal vault measuring 8 feet wide and 4 feet deep weighing 400 pounds. The vault will be placed outside anchored to the ground.

During our visit last spring you mentioned having difficulty finding our Warrington Plant. The physical address of that facility is 5480 Afton Lane Warrington, VA. This is the address stated in Condition 10 of our current license 45-24949-01. Please let me know if more detail in needed on our license.

Please let me know what further I can do to complete these matters. I can be contact me at office (703) 631-0004 or cell 571-641-0169.

Sincerely,

Tony Loconti
