Randy:

I want to go on record with a letter saying that we are hiring outside experts to help us with looking at the issue of corrosion of the OC drywell. As you know, we thought the NRC was thorough in investigating the issue before restart, but we reserved judgement with regard to license renewal.

I've drafted a letter. It is attached. I wanted to send it prior to the ACRS subcommittee meeting.

Last time I drafted a letter, you looked at it from the point of view of the sensitivity of NRC to certain words, phrases, etc.

Can you just give me an honest read of the attached letter? I don't want to raise eyebrows, and I just want to focus on the fact that we are hiring an outside expert. I'm worried that I may have said something unintentionally that could be construed as criticizing NRC.

Thanks.

Jill
