Matt,

I've just run the latent cancer report. It is attached. Anything else, just let me know.

Elaine

Elaine,

Thanks, this looks like the dose consequence report, is there also an LCF report that goes along with this or can you provide? Thanks.

Matt

Matt,

Attached is the radtran report with the accident probability of $3e-7$ and the accident probability fractions of $90\%=0$ and $10\%=1$.

The incident free dose remains the same and the accident dose is a lot smaller, as expected.

I'm working at home today, if you need me to do any more runs, call me: 

Elaine
