In the Matter of
David Geisen
Docket No. IA-05-052; ASLBP No. 06-845-01-EA

Dear Administrative Judges:

Pursuant to the Board's request, the Staff has identified the following key documents in the above-captioned proceeding and included them in the attached CD's, one of which contains proprietary information and is marked accordingly. The Staff shared this list with counsel for Mr. Geisen who has expressed no objection to providing the documents listed. Counsel for Mr. Geisen is providing separately documents from a list to which the Staff did not object. However, the Staff does not represent or concede that the documents identified by Mr. Geisen are admissible in the hearing.

Please note that this is not intended to be a complete list of documents the Staff will seek to offer into evidence at hearing. The Staff suggests the following documents for background information: "Degradation of the Davis-Besse Nuclear Power Station Reactor Pressure Vessel Head Lesson Learned Report" ML022760414 (09/30/2002); and "Augmented Inspection Team Report" ML021260141 (05/30/2002).
