| Subject: | Docket No. PRM-51-11 |

To The NRC,

As a citizen that lives near the nuclear power plant (Pilgrim- Entergy, MA)
and on behalf of all others in this nation that live near our 103 power
plants, I am very concerned about the release either intended or unintended
that leads to evidence of increased cancer and leukemia rates.

In particular I would like you to consider the BEIR VII report
and it's ramifications on the public health.  I do not believe that the
"allowable" levels are in anyway "safe".  I believe that the public living
near nuclear power plants or anywhere else for that matter should not have
to be exposed to any radiation.  I believe we have the right to clean air
and water.

Please consider this appeal when considering any re-license of Nuclear
Plants and the general day to day operation of any said plants.

Thank you for your consideration regarding this matter.

Richard DiPrima
