Dr. Steve Reese, Chairman  
National Organization of Test, Research and Training Reactors  
Oregon State University  
100 Radiation Center,  
Corvallis, OR 97331-5903

SUBJECT: NATIONAL ORGANIZATION OF TEST, RESEARCH AND TRAINING  
REACTORS (TRTR) INPUT ON FINGERPRINTING REQUIREMENTS FOR  
UNESCORTED ACCESS TO RESEARCH AND TEST REACTORS

Dear Dr. Reese:

This letter is in acknowledgment of your December 15, 2006, letter that provided TRTR input on fingerprinting requirements for unescorted access to research and test reactors. The NRC staff continues to work on this issue and will consider TRTR's input.

As we have discussed, the NRC is committed to conducting its regulatory responsibilities on research and test reactors as specified in the Atomic Energy Act. We will continue to work with TRTR and other stakeholders to the maximum extent practicable to ensure our regulatory actions are open, effective, efficient, realistic and timely.

Thank you for providing TRTR's input on this important matter. I look forward to continuing to work with TRTR, and you, on these and other important issues. Please feel free to contact me if you have any questions.

Sincerely,

*/RA/*

Ho K. Nieh, Deputy Director  
Division of Policy and Rulemaking  
Office of Nuclear Reactor Regulation
