Mr. Eric Abelquist, Director
Independent Environmental
Assessment & Verification
Oak Ridge Institute for
Science and Education
Post Office Box 117
Oak Ridge, TN 37831

SUBJECT: INDEPENDENT LABORATORY SPECIAL SAMPLE RESULTS

Dear Mr. Abelquist:

Please be advised that the U.S. Nuclear Regulatory Commission (NRC) has been notified by the Department of Energy Radiological & Environmental Sciences Laboratory (RESL) that the results of Special Intercomparison Test 1003 (LO-RESL-06-116) reported by ORISE were within the acceptance criteria. The results are summarized in the enclosed letter from RESL dated November 28, 2006, to John Buckley, the NRC Technical Project Manager for RESL and Dale Condra of your staff.

Therefore, the NRC Stop Work Order issued August 4, 2006 (ML062080606), for these special samples is cancelled. The NRC staff looks forward to ORISE's continued participation in the independent testing of laboratory protocols with RESL and expected high level of performance.

The NRC is planning to conduct the annual audit of ORISE in September 2007. At that time, we will review the status of your evaluation and corrective action(s).

Sincerely,

/RA/

Bruce A. Watson, CHP
ORISE Technical Project Manager
Senior Health Physicist
Special Projects Section
Decommissioning Directorate

Enclosure:

Letter: D.Sill to J.Buckley - Results of Special Intercomparison Test 1003 (LO-RESL-06-116)
