Subject: GRANTS - SUA1471 - License Amendment for Evaporation Pond #3 (EP-3)
40-8903

Ron,

All the Best for 2007!!!

Attached is a Gantt chart for tasks and timing for construction and commissioning of EP-3. Obviously this is predicated on amendment of the RML - it's an aggressive schedule but as you know, it's a critical piece for us to move on at Grants so we can keep moving on groundwater restoration and finishing up closure over the next several years. We have been pond capacity limited for awhile now, and it remains an issue that we need to resolve such that we can complete the large tailings pile (LTP) injection / collection program and operate the RO at a full 600gpm capacity.

Please call if you have questions, or if you have identified anything in the amendment request/ pond design package that you need at present.

Thanks.....Al
Alan D. Cox
