LISLE, ILLINOIS 60532-4352
JAN 17 2007

Mark Gates, M.D.
Radiation Safety Officer
St. Francis Medical Center
211 St. Francis Drive
Cape Girardeau, MO 63703

Dear Dr. Gates:

Enclosed is Amendment No. 60 amending your NRC Material License No. 24-00158-03 in accordance with your request. Please note that the changes made to your license are printed in **bold** font.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

Please note, based upon the close-out survey results in the letter received November 2, 2006 (with attachments), and the facsimile letter dated January 11, 2007 (with attachments), we have authorized you to release your "old" nuclear medicine department for unrestricted use.

Please note, that we have reformatted Condition No. 12 to remove all references to exclude authorizations such as "generators, xenon-133, aerosols, limited to cardiovascular procedures, sodium iodide I-125 and sodium iodide I-131."

Please be reminded, however, that you are still bound by the restrictions imposed by the excluded authorizations contained in documents incorporated into your license by Condition No. 15 in your license.

Also note, as discussed with Robert Scheper, we have specified a total possession limit in Item 8.D. for 35.400 materials.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Sincerely,

William P. Reichhold
Materials Licensing Branch
