Dear Director General Moon:

Thank you for your letter dated January 9, 2007. Please accept my congratulations on your new position as Director General for Nuclear Safety at the Ministry of Science and Technology (MOST). I wish you great success in your new position. Our agencies have benefitted from a long history of cooperation, and I look forward to working with you during your tenure at MOST.

I understand that circumstances with your new position may preclude you from participating in the U.S. Nuclear Regulatory Commission (NRC) Regulatory Information Conference. I look forward to hearing from the chosen participant from the Korean Institute of Nuclear Safety (KINS). I have asked NRC's Office of International Programs to coordinate the arrangements for the KINS participant. The NRC contact is Mr. Kirk Foggie, who can be reached at (301) 415-2238, via e-mail at kxf@nrc.gov, or by fax at (301) 415-2395.

I extend to you my best regards for your success in facing the challenges of your new assignment.

Sincerely,

/RA/
