Subject: possession limit reduced

(NOTE: This will be used as the Documents Title in ADAMS)

Summary: The licensee requested that the possession limit for Ir-192 be reduced to a level below Table 1 (see Increased Controls). I requested the licensee to provide an actual curie amount so that I can write that on the license.

Since the license was written in a previous format, I reviewed the new standardized format with the licensee.

The licensee's application in 2004 referred to Amersham Model 660B camera, but the previous amendment referenced an Amersham OP-660. These typos will be corrected.

Action Required: Wait for licensee response and amend license.
