**Subject:** Sent kaolite micrographs to you

Good morning Kim,

I sent out a FedEx package to you last night, that should be at your building by now. The package contains two CDs. They're duplicates. Each CD contains the following two files:

1. kaolite micrographs - docket 9315 ---- This file has 6 images taken at a magnification of about 5. The images can be enlarged to show more detail. The 6 images are of kaolite samples taken at 3 different elevations within the ES-3100 container: liner casting and at two different circumferential positions.
2. Legend for kaolite micrographs ---- This file is a photograph of an ES-3100 container showing the position of the 6 images. The samples are numbered 1 - 6, and the each image is cross referenced to a sample number.

I hope this information will answer Bob's concerns on amendment 2. If you have any questions, or need more information, please let me know.

Thanks,  
Jeff
