Dear Mr. Finerfrock:

We have reviewed the proposed changes to the Utah regulations Utah Radiation Control Rules, received by our office on December 28, 2006. These are changes associated with the Utah five-year continuation process review for compatibility. We discussed our review of the regulations with Philip Griffin on January 22, 2007.

As a result of our review, we have no comments. Please note that we have limited our review to regulations required for compatibility and/or health and safety. We have determined that the regulations, as proposed, meet the compatibility and health and safety categories established in the Office of State and Tribal Programs (STP) Procedure SA-200. We request that when the proposed regulations are adopted and published as final regulations, a copy of the "as published" regulations be provided to us for review. As requested in STP Procedure SA-201, "Review of State Regulatory Requirements," please highlight any final changes and provide a copy to Division of Materials Safety and State Agreements, Office of Federal and State Materials and Environmental Management Programs (FSME) (see letter FSME 06-94 dated October 6, 2006 for further information).

The SRS Data Sheet summarizes our knowledge of the status of other Utah regulations, as indicated. Please let us know if you note any inaccuracies, or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on the FSME website: <http://www.hsrdrn.gov/nrc/rulemaking.htm>.

If you have any questions regarding the review, the compatibility and health and safety categories, or any of the NRC regulations used in the review, please contact Kathleen Schneider, State Regulation Review Coordinator at 301-415-2320 (email: kxs@nrc.gov), or Monica Orendi at 301-415-3938 (email: mlo1@nrc.gov).

Sincerely,

IRA By S.W. Moore
