Subject: (NOTE: This will be used as the Documents Title in ADAMS)	RAI regarding disposal of Gd-153 sources	
Summary:	Discussed that the sources disposed and requested to be removed from the license were not the sources currently listed as "storage only." Mr. Immerso described the disposed sources as old bone mineral analyzer sources. Mr. Immerso stated that the sources listed on the license as "storage only" were probably the old camera attenuation sources and he would search for the disposal records. According to Mr. Immerso, the licensee does not currently possess any Gd-153, but wishes to maintain authorization for attenuation sources for use with their current cameras.	
Action Required:	Licensee will submit disposal records for sources currently listed on the license.
