SUBJECT: ABB PROSPECTS, INC., VOIDANCE OF APPLICATION FOR LICENSE
AMENDMENT, CONTROL NOS. 138005, 138386, AND 138818

Dear Mr. Conant:

This concerns the subject application for an Amendment to your material license, and our phone conversation on December 21, 2006, in which we discussed your request for an amendment to terminate portions of your NRC License based on the condition of the facility as documented in Final Status Survey Reports (FSSRs) submitted on October 31, 2005, February 7, 2006, and May 2, 2006.

From our conversation, we understand that ABB Prospects will be submitting additional FSSRs to the NRC to document the status of the remainder of the facility. In lieu of issuing a license amendment for each individual FSSR approval, we will issue a single license amendment once all FSSRs for remediation of NRC-licensed areas are submitted and found to be acceptable by NRC staff. Therefore, in an effort to be consistent regarding the review and processing of the FSSRs, the NRC has voided your application for an amendment at this time. This action is taken without prejudice to the resubmission of your request. Additionally, the NRC will provide separate correspondence to document the results of its review of the FSSRs.

Sincerely,
