OFFICE OF SECRETARY
RULEMAKINGS AND
ADJUDICATIONS STAFF

Hi,

The NRC needs to write some better rules on radioactive emissions from atomic reactors.

We live within ten miles of VY. My mother, two brothers, three sisters and my daughter died of cancer. A neice also died of leukemia, and another sister is battleing leukemia. I have had to have had two brain tumors. The Enron type "adjusting" of fence line radiation readings is not comforting. No amount of radiation is safe, but at the very least, realistic rules about radiation emissions need to be in force.
