January 24, 2007 (4:45pm)

OFFICE OF SECRETARY  
RULEMAKINGS AND  
ADJUDICATIONS STAFF

I am Chair of PACE [\\_www.pace-cleanenergy.org\\_](http://www.pace-cleanenergy.org)  
(<http://www.pace-cleanenergy.org>) and our organization is deeply concerned about the vulnerability of the population to the dangers of low-level radiation. We must base our standards on the effects on the aged, infirm, unborn and young as well as females. To base them on healthy males is deceptive and unwise. We also must consider ingesting radiation through breathing or taking in food or water. In addition, accidental releases must be included in radiation limits. Knowing that there is probably no safe dose for some members of the population should be publicized and respected.

27

This is a critical and urgent problem.

Judi Friedman

Green is the new red, white and blue.
