

April 23, 2007

Mr. Roy S. Blickwedel
GE Corporate - Environmental Programs
640 Freedom Business Center
King of Prussia, PA 19046

SUBJECT: APPROVAL OF ADMINISTRATIVE LICENSE AMENDMENT REQUESTS
SOURCE MATERIAL LICENSE SUA-1475 - AMENDMENT 39 (TAC J00513)

Dear Mr. Blickwedel:

The U.S. Nuclear Regulatory Commission staff has reviewed the United Nuclear Corporation's (UNC's) requests in letters dated January 11 and March 6, 2007, to amend License Conditions 30.C, 35.A.(3), 35.B.(1), and 35.B.(2) of Source Material License SUA-1475, for the Church Rock, New Mexico, site. Based on that review, the License Conditions are hereby amended. The amendment extends the submittal date of UNC's Corrective Action Program Annual Report from December 31 of each year to January 30 of the following year. It also revises the ground water corrective action completion milestone to December 31, 2010, and the reclamation milestones for the final radon barrier and erosion protection cover to December 31, 2011.

The enclosed Technical Evaluation Report (Enclosure 1) contains the staff's assessment of the licensing action. This licensing action is considered administrative in nature and falls within the 10 CFR 51.22(c)(10) and (11) categorical exclusion provisions. As a result, no environmental assessment is required.

The license is being revised to incorporate the requested change, and is enclosed as Amendment 39 (Enclosure 2). If you have any questions concerning this letter or the enclosures, please contact Paul Michalak, the NRC Project Manager for the UNC-Church Rock site, at (301) 415-7612 or, by e-mail, to pxm2@nrc.gov.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice for Domestic Licensing Proceedings and Issuance of Orders," a copy of this letter will be available electronically for

public inspection in the NRC Public Document Room or from the Publicly Available Records component of NRC's Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

/RA/

Keith I. McConnell, Deputy Director
Decommissioning and Uranium Recovery
Licensing Directorate
Division of Waste Management
and Environmental Protection
