Congress of the United States

Washington, D.C. 20515

January 26, 2007

Dale E. Klein, Chairman
U.S. Nuclear Regulatory Commission
Washington, DC 20555-0001

Dear Chairman Klein:

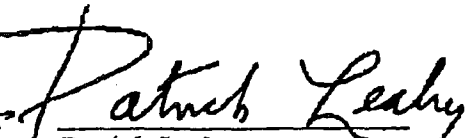

We are aware that the Nuclear Regulatory Commission (NRC) will be holding a public meeting in Brattleboro, Vermont on Wednesday, January 31, 2007 to discuss the Draft Supplemental Environmental Impact Statement (DSEIS) for license renewal of the Vermont Yankee plant. We have been informed that members of the Vermont Legislature are interested in being briefed by the NRC on its DSEIS. Given that the Legislature will be in session in Montpelier on January 31, 2007, the day you have chosen for your public hearing, we urge you to hold an additional public meeting in Montpelier so that interested legislators, as well as members of the public unable to make it to Brattleboro, will have the opportunity to ask questions and discuss NRC's findings.

Continued operation of the Vermont Yankee Nuclear Reactor is an issue of great concern and interest to citizens throughout the state. Holding a public meeting in Montpelier on the DSEIS will allow more Vermonters to participate and go a long way in providing those elected to represent the citizens of Vermont the opportunity to better understand the renewal process.

We appreciate your timely attention to this issue and look forward to your response.

Sincerely,

Bernard Sanders
United States Senator

Patrick Leahy
United States Senator

Peter Welch
United States Representative
