Subject: M & D Order for Seaman Nuclear Corp.

Dear Mr. Quinones-Padavani,
This is in response to Agreement State Letter FSME-06-110.

From our discussion today, I understand that Seaman Nuclear Corp. is under the NRC Order for Manufacturers and Distributors but is not required to implement as they do not have, (nor do they expect to have), Category 2 Quantities of Radioactive Material. Their current possession limits do however exceed the unity rule which is why they are considered under the NRC Order for Manufacturers and Distributors.

Seaman Nuclear Corp. is not authorized to manufacture sealed sources, therefore, WI will not be placing the license condition requiring unique serial nos. on each sealed source.

Wisconsin does not have any sealed source manufacturers.

Should you need additional information, please contact me.

Sincerely,
Cheryl K. Rogers, Supervisor
Radioactive Materials Program
WI DHFS-Radiation Protection Section
