U.S. Nuclear Regulatory Commission  
475 Allendale Road  
King of Prussia, PA 19406-1415

**ATTENTION:** Regional Administrator Region 1

**SUBJECT:** Nine Mile Point Nuclear Station  
Unit No. 1; Docket No. 50-220

Request for New NRC Examination Date

**REFERENCE:** (a) Letter from T. J. Shortell (NMPNS) to the Nuclear Reactor Commission (NRC),  
NRC Regulatory Issue Summary (RIS) 2005-19, Preparation and Scheduling of  
Operating Licensing Examinations, Dated September 26, 2005

In Reference (a), the Nine Mile Point Nuclear Station (NMPNS) requested that the NRC commence the administration of the Unit 1 Initial NRC License Examination on December 11, 2006.

During a November 7, 2006 telephone conference between NMPNS staff members and Mr. Marvin D. Sykes, Branch Chief, NRC Region I, it was agreed that the NRC would, at NMPNS's request, reschedule the NRC's administration of the Unit 1 Initial NRC License Examination from the week of December 11, 2006 to a date after February 14, 2007. As a follow up to that telephone conference, NMPNS submits this letter to request a change from the original December 11, 2006 commencement date to a date after February 14, 2007.

Please advise me on the availability of a new exam date.

If you have any questions regarding this date change, please contact Robert Brown (General Supervisor Operations Training) at 315-349-4531.

Sincerely,

Thomas J. Shortell  
Manager Training and  
Performance Improvement

TS/KSE
