Dear Jim:

Cell & Molecular Technologies INC. (CMT, now part of Invitrogen Corporation) located at 445 Marshall Street, Phillipsburg, NJ 08865 is scheduled to close on March 30, 2007. This letter is to inform the NRC that this site is beginning the decommissioning process.

CMT moved into the 445 Marshall Street facility in Feb 2002. As per our Materials License # 29-30418-01, Phosphorus-32 (P32) was used at an average of 250 uCi per week, and a one time use of 3 mCi of Sulphur-35 (S35) was used on April 1, 2004.

The S35 materials were decayed on site and disposed appropriately and the undecayed P32 materials were picked up on Jan 29, 2007 by a waste disposal company Duratek/Energy Solutions. CMT is no longer in use of any radioactive isotopes.

In about two weeks, another letter will be provided to the NRC detailing the results of our final wipe tests, and all appropriate forms to terminate our current license.

Due to the short time frame in which this needs to be accomplished, an expedited review of our documents is requested.

Thank you.

Sincerely,

Naseem Probstak
RSO
