Mike:

I looked this document over and have no comments to offer other than good job! I found this SER to be comprehensive, all inclusive and extremely well written. Again, my complements.

Sincerely,
Chuck McCracken, Supevisor
Ohio Department of Health,
Bureau of Radiation Protection,
Nuclear Materials Safety Section,
Materials Decommissioning and Safeguards

Jon, Peter and Chuck, I would appreciate your review and comments on the SER, if any.

Jon, I recognize the groundwater section may change when I get your TAR response. But thought this writeup might help. Battelle indicates that I should get their final groundwater report next week. They have verbally indicated that everything is basically MDC. I will check with ORISE. I have received the letter report on beta, alpha, Sr-90, gamma spec and everything MDC. Hopefully we will get the alpha spec next week. I will check with Dale Condra again.

Peter please look at the dose-assessment and final status review comments, and let me know if you have any additional comments.

Chuck, if you have any questions please do not hesitate to give me a call. It is looking doubt full that we will make December 31, 2006. We still have to send a letter to the EPA for consultation, but there is always hope.

Receipt of your comments as soon as possible would be greatly appreciated.

Please acknowledge receipt of this e-mail.

Thanks

Mike
