Docket No. 52-008-ESP

To Whom it May Concern,
I will not be able to attend the public hearing on February 8 in Louisa County concerning the attempt of Dominion Power to gain approval for 2 new reactors at the North Anna site. I am therefore submitting these comments in writing.

I OPPOSE granting Dominion Power the right to construct two new reactors for the following reasons:

- 1) There is no adequate plan for long-term storage of wastes. If you take the amount of time that this waste will have to be guarded and extrapolate that backwards in time, neither civilizations nor humans existed. How arrogant of us to assume that this civilization we have so quickly constructed can guard wastes so far into the future?
- 2) There is not adequate cooling water from the lake, particularly in drought conditions.
- 3) There is no adequate evacuation plan in the event of an accident.
- 4) Dominion's Demand Side Management program is pathetic. They are substituting the highest cost form of power (nuclear) for the lowest cost (demand side management), and expecting us to pay the bills.

Thank you for your consideration of these important matters.

Alexis Zeigler
