 Subject: Decommissioning cost estimate  
 (NOTE: This will be used as the Documents Title in ADAMS)

Summary: I verified with the RSO that the current inventory has only sealed tritium sources. The RSO stated that unsealed materials have not been used for years and that all labs which previously used unsealed materials have been cleaned and do not need to be deconned. The RSO also verified that there is no radioactive waste on site. I told the RSO that I was approving the decommissioning cost estimate and would mail out a letter confirming it. I informed the RSO that in the future he should use guidance from NUREGS 1757 and 1575.
