Re: FOIA request for Big Rock Point Plant; Docket Numbers 50-155 and 72-043

Dear Ms. Silber,

We are requesting NRC information under the Freedom of Information Act regarding the Big Rock Restoration Project near Charlevoix, Michigan. We are seeking information on "Parcel A" for Big Rock Point which represents 107 acres including the site's dry cask storage facility, which has not been released for public use by the NRC and will remain under the responsibility of Consumer's Energy and under the Big Rock Point's licenses.

Specifically, we are seeking recent monitoring documents that outline the level of radiation from the Independent Spent Fuel Storage Installation and residual contamination within Parcel A. Additionally, we are seeking documents referring to requirements upon Consumer's Energy for future responsibility, liability, monitoring, etc. for Parcel A. Furthermore, we request documents which provide information on what is required between the Release Area and the Independent Spent Fuel Storage Installation including how much buffer is necessary, type of required protection for nuclear waste (fence, armed guards, etc.), and future monitoring requirements for the area.

Please send a copy of the information requested to:

Jennifer McKay  
Tip of the Mitt Watershed Council  
426 Bay St.  
Petoskey, MI 49770

If there are any questions, please contact me at 1-231-347-1181, ext. 114. Thank you for your assistance.

Sincerely,

  
Jennifer McKay  
Policy Specialist
