TRAINING: None

REMARKS: IP 88106 (Quality Assurance: Program Development and Implementation (Pre-licensing and Construction)) is issued to improve the effectiveness and efficiency of the MOX inspection program by incorporating and consolidating quality assurance program development inspection requirements during pre-licensing and construction.

IP 88108 (Quality Assurance: Control of Materials, Equipment, and Services (Pre-licensing and Construction)) is issued to improve the effectiveness and efficiency of the MOX inspection program by incorporating and consolidating quality assurance requirements for the control of materials, services, and equipment and the associated inspection requirements.

IP 88111 (10 CFR, Part 21, Inspection-Facility Construction) is issued to improve the effectiveness and efficiency of the MOX inspection program by incorporating and consolidating 10 CFR Part 21 inspection requirements during facility construction.

IP 88113 (Control of the Electronic Management of Data) is issued to improve the effectiveness and efficiency of the MOX inspection program by incorporating and consolidating requirements for inspection and control of electronic management data.

IP 88116 (Inspection of Safety Function Interfaces for the Mixed Oxide Fuel Fabrication Facility (Pre-licensing and Construction)) is issued to improve the effectiveness and efficiency of the MOX inspection program by incorporating and consolidating safety function interfaces and inspection requirements.

DISTRIBUTION: Standard
