Docket No. 52-008-ESP

Good Morning,

I am unable to attend the public hearing, but I would like my comment to be part of the public record.

My newspaper, the "News & Advance" has run 3 full-page color ads in the last 2 weeks from Dominion costing tens of thousands of dollars featuring cute and cuddly huddling penguins. Why bombard consumers with all this warm and fuzzy advertising when they are a monopoly? Quite simply, they want to change their image from one of waste, excess and irresponsibility to one of sweetness and conservation. Well, I don't buy it and neither do thousands of consumers. The region of the proposed expansion is too populated to manage the safety or terrorism issues. The radioactive waste disposal has been and will be an issue which is the Achilles heel of this industry--this must be addressed FIRST, not as an afterthought. Who is speaking for the waters of Lake Anna and what would additional heated water do to that ecosystem? Finally, slow down this speeding train so reason can prevail--why do we not hear about conservation, power price reduction for off-peak use and installation of hot water shut offs which co-operatives like Southside install for efficiency as part of the Dominion equation? Why is it More, Now, Hush and Rush this process? Please deny this permit.
