Jim, Jim, and John,

I got Mr. Noggle's voice mail when I got back from West Valley on Friday.

I will not be able to be at the site this week (today 10/30 - 11/3) for the current visit.

However, I would like to participate in part of the inspection process the week of 11/13.

As you undoubtedly know by now, there is a FEMA observed drill for IP that week on the 14th.

Both State agencies and Entergy will be heavily involved with that drill.

I will be acting as a controller for a Rockland Co field team on Tuesday the 14th, but can be at the site on Wed and Thursday when Mr. Nicholson is there. If necessary I can probably stay through Friday morning as well.

As soon as you have a tentative agenda for the week I would appreciate a copy.

As for the sampling at the quarry, we will not be participating in the event due to scheduling issues, but would appreciate a split if you are able to actually arrange to collect a sample from the rock face.

Thank you,

Tim
