**Subject:** No New Nuclear Plants

I am writing as a citizen of Virginia opposed to any new nuclear generating units at North Anna.

I am concerned about the disposal of highly radioactive waste remains and evacuation planning and preparedness in case of accident or terrorist attack. Concerns about very high water temperatures, droughts and overall ecology of Lake Anna and the York River watershed have not been properly addressed.

Dominion Power has made little attempt to incorporate renewable energy sources and conservation technologies into its future energy plans. Until Dominion Power has a plan in place for the use of renewable energy sources and conservation technologies, they should not be granted permission to build new nuclear generating units.

Nuclear energy is not green and will be clean only when the U.S. utilities have a comprehensive plan for the disposal of radioactive waste.
