Subject: RE: MW sampling

Thanks Jim,

We will take a look at it and follow up on the wells. I appreciate your clarification.

Regards
Tom Burns

Subject: MW sampling

Dear Jay/Tom,

We have looked at the data more carefully to minimize the unnecessary sampling to ensure we reevaluate any monitoring well indicating decreasing Sr-90 concentrations and have come up with the following short list.

MW-42 41'	MW-41 42'	MW-36 41'	MW-45 43'	MW-49
25'				
MW-42 43'	MW-41 64'	MW-36 53'	MW-45 62'	MW-49
42'				
MW-42 46'				
	MW-49 65'			
MW-42 48'				
MW-50 42'	MW-39	MW-58 71'	MW-59	
MW-50 67'				

By my count, that is 18 well samples. I hope we can schedule these within the next few weeks. We can talk more next week, but I wanted to be clear about the samples we are requesting. Give me a call if you need more info or want to discuss this further.

Regards,

Jim
