Republic of Korea

January 9, 2006

Mr. Dale Klein  
Chairman  
The U.S. Nuclear Regulatory Commission

Dear Mr. Klein :

Firstly, it is my regret to tell you that I have moved to the R&D Coordinating Office for Energy and Environment as of last December. The time and events we shared during my service as the Director General for Atomic Energy Bureau(DG for AEB) of Ministry of Science and Technology(MOST) are unforgettable experiences and will be remembered. Particularly, I would like to express my great appreciation for your help at the INRA meeting in September 2006, with hopes of meeting you again in the future.

Secondly, I would like to express my gratitude for the invitation to the 19th Annual Regulatory Information Conference, with reference to your letter dated November 28, 2006.

However, aforementioned position changes suggest that there is a new eligible participant from Korea. For this reason my successor will inform you of their availability soon.

Lastly, I hope that cooperation between Korea and the U.S. in the field of nuclear safety will remain as firm as it has been, and be further strengthened in the future.

Sincerely yours,

Mun-Ki LEE  
Director General for Energy and Environment Coordination Bureau  
Ministry of Science and Technology

CC: J.E. Dyer,  
Director, Office of Nuclear Reactor Regulation, NRC

Janice Dunn Lee,  
Director, Office of International Programs, NRC
